Introduction

The following document is an addendum to the Community Health Needs Assessment (CHNA) and contains data on members of the HealthStreet cohort with a history of cancer.

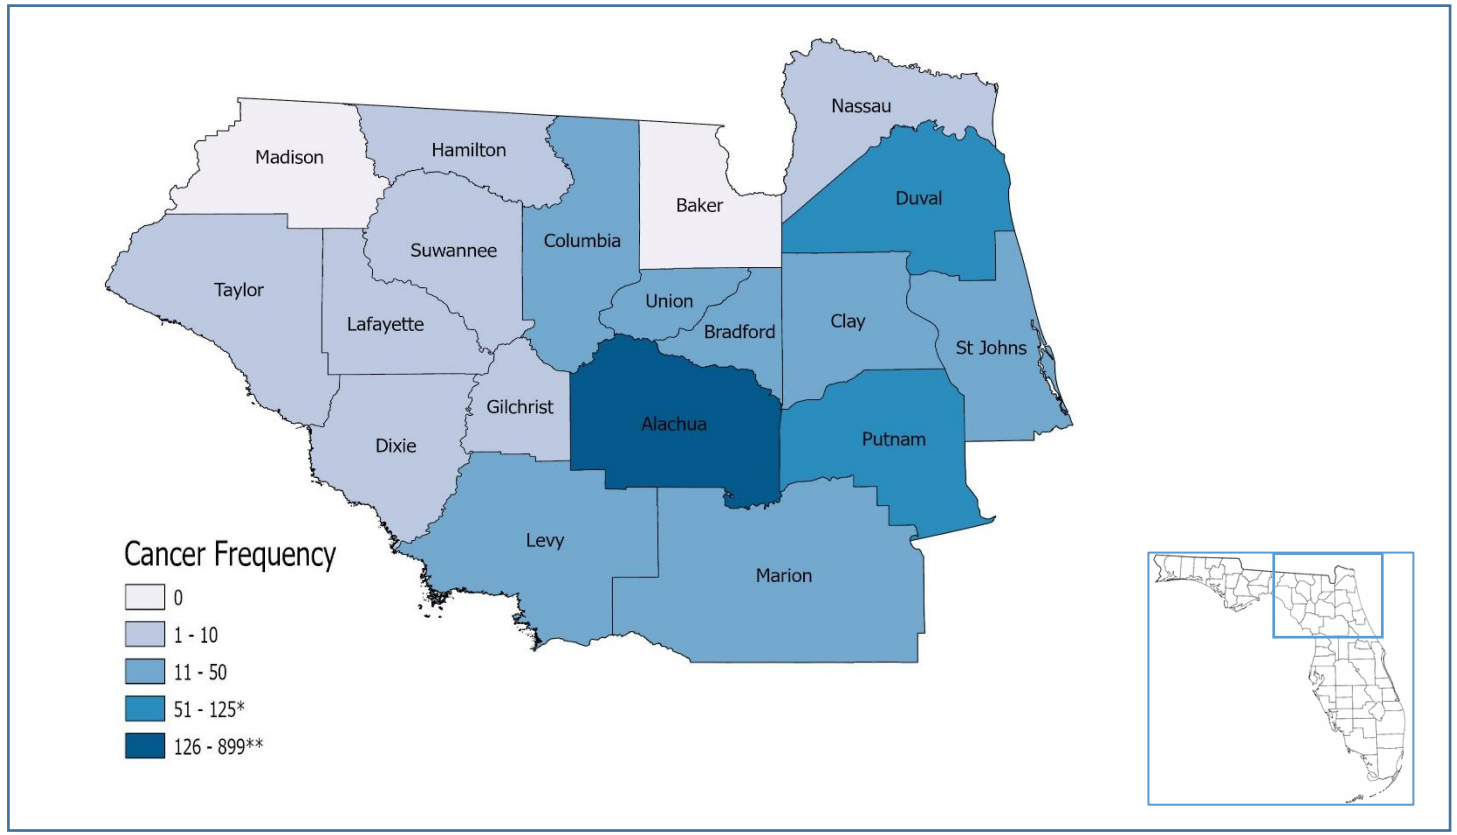

Figure 1: County of residence among HealthStreet members with a history of cancer in Northeast Florida

* Exact sample size for Duval County ** Exact sample size for Alachua County

In addition, there is at least one HealthStreet member with a history of cancer 18 other counties not contiguous with the counties shown on this map. There are also 6 HealthStreet members with history of cancer in Bay County, 10 in Miami-Dade, and 12 in Calhoun.

Table 1: Demographics of HealthStreet members by Year of Intake

	2011-2012		2013-2014		2015-2016		2017-2018		2019-2020		2021-2022		2023-2024		2025		2026		Total

* More than 1 cancer type reported for 157 HealthStreet members

Table 6a: Number of cancer types reported among HealthStreet members

One Cancer Type	Two Cancer Types	Three Cancer Types	Total**
1,203 (88.4%)	120 (8.8%)	38 (2.8%)	1,361

** 17 members reported cancer and are missing cancer type

Table 7: Navigations and enrollments of HealthStreet members to cancer studies

Study Title	PI Name	Navigated	Enrolled
Breast Cancer Research Recruitment	Yulia Strekalova	20	5
Examination of Patient narratives as a Decision Making Tool for Early Stage Breast Cancer Surgery	Lauren Hearn	22	12
Developing and pilot testing a patient-centered intervention using virtual humans to increase colorectal cancer screening (VH)	Janice Krieger	206	63
A Multi-Center Biologic Assignment Trial Comparing Reduced Intensity Allogeneic Hematopoietic Cell Transplant to Hypomethylating Therapy or Best Supportive Care in Patients Aged 50-75 with Intermediate-2 and High Risk Myelodysplastic Syndrome	John Wingard	1	0
A Randomized Phase III Double Blinded Placebo Controlled Trial of Aspirin as Adjuvant Therapy for Node Positive HER2 Negative Breast Cancer: The ABC Trial	Karen Daily	2	0
Imaging the Patterns of Breast Cancer Early Metastases	Walter O'Dell	15	1
Phase III of Adjuvant MEDI4736	Priya Gopalan	1	0
Phase III study of ODM-201 vs placebo	Long Dang	1	1
Randomized evaluation of safety and efficacy of the Deep Transcranial Magnetic Stimulation intended as an aid to smoking cessation	Herbert Ward	21	1
Effectiveness of a prostate cancer handout for African American men	DeCoria McCauley	30	10
Prostate Cancer & LGBTQIA	Mary Ellen Young	3	2
Exploring experiences, needs and percieved influence, of informal caregivers of black men across the prostate cancer continuum of care	Esther Piervil	8	5
Family Discussions Concerning Prostate Cancer	Mary Ellen Young	12	3
HPV Vaccine- CAB	Stephanie Staras	2	0
Intent to Screen for Prostate Cancer	Mary Young, PhD	17	4
Intention to screen for sex specific cancers in men and women	Mary Ellen Young	28	1
REACH	Nicole Whitehead	3	2
Gut microflora and estrogens: a new paradigm for breast cancer risk reduction	Lusine Yaghjyan	80	18
Grateful Strides Toward Physical Activity and Well-Being for Black Breast Cancer Survivors	Lakeshia Cousin	6	4
Total		**478**	**132**

The table above shows the recruitment of community members to cancer studies through HealthStreet since receiving preeminence funding.

On a scale of 1 to 10, where
1 is "**Not At All**" and
10 is "**Completely**"

Scores 1-3: **Low**

Scores 4-6: **Medium**

Scores 7-10: **High**

*Among 1,037 members who reported Cancer and answered both.

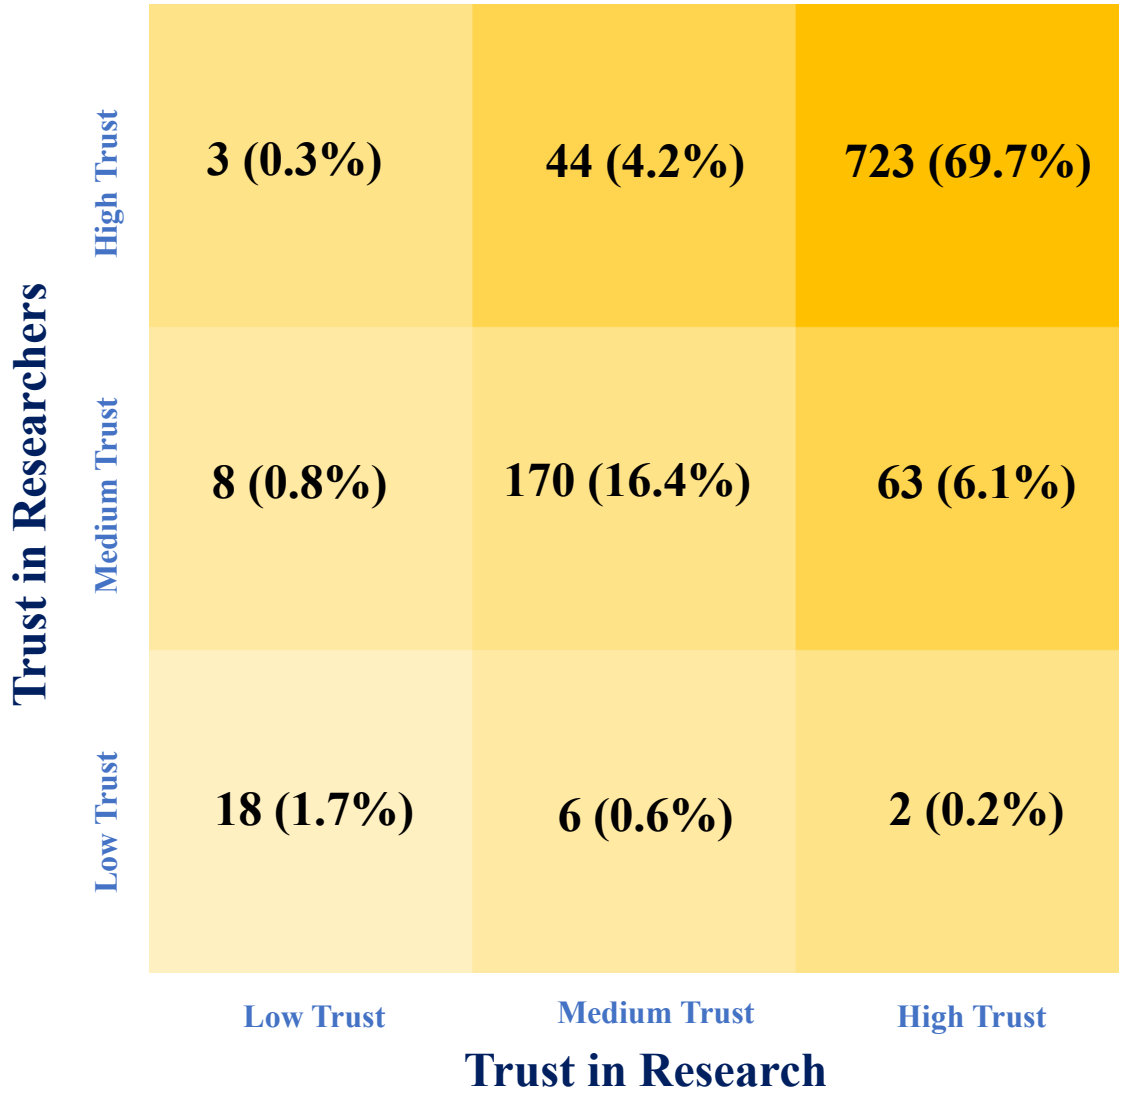

Figure 2: Baseline Trust in Research and Researchers among members with history of cancer

Contact Us

Customized reports are available for:

- Community Health Needs Assessment
- Preliminary data for grants
- Cohort identification
- Navigation of screened and eligible participants in our database to your research studies

Please let us know how we can help you.
